### APPALLING CATASTROPHE ON LINE AT ATLANTIC CITY

Almost Without Warning Front Car  
Leaped the Track and Went  
Over Into Water Followed  
by Two More Cars.

Atlantic City, Oct. 29.—Seventy  
dead is this afternoon given as the  
total number of deaths in the disas-  
ter on the third rail system here Sun-  
day. Twenty other victims are in the  
hospital seriously hurt and ten of  
these are expected to die.

A new theory was advanced today  
to account for the horror. It is  
charged that the interlocking mech-  
anism of the rails on the draw was  
faulty and this fact was known to the  
railroad people. Fifty-nine bodies  
have been recovered up to early this  
afternoon. All but sixteen of the  
bodies have been identified.

Atlantic City, Oct. 29.—Seventy per-  
sons are dead and 20 hurt is the lat-  
est estimate today of the casualties in  
the wreck on the West Jersey and  
Seashore Electric railroad Sunday  
afternoon. Sixty bodies have been  
recovered where the three car train  
went through the bridge over the  
Thoroughfare, the stream separating  
Atlantic City from the mainland.

The "draw" span of the bridge was  
not in exact alignment with the solid  
span because the heavy iron pin  
which holds the two together had  
not dropped into place after the draw  
was closed, following the passage of  
a boat through it a few minutes be-  
fore. The right hand rail was about  
a half inch out of place which gave  
the wheels of the fast rushing elec-  
tric train a chance to push it still  
further away. When the forward  
wheels struck this place the whole  
train suddenly left the tracks and  
took a snake like course over the side  
and hurled itself into the water. Cor-  
oner Gaskill has investigated the  
wreck. He has evidence that will  
probably place the responsibility up-  
on the company because of the ab-  
sence of a guard rail on the bridge.

Diver John Cooney who went down  
beside the submerged cars time after  
time, tells the following story:

"My God! People are lying down  
there by the dozens and dozens, all  
jammed together, dead. They didn't  
have a second's chance for their lives.  
I could only get a good look at the  
first car. Up in front of that there are  
about 20 or 30 people all in a bunch.  
A man in uniform—he must have  
been the motorman, is half floating  
and half resting on one of the brass  
hat racks along the upper part of one  
of the sides of the car. There's one  
woman with her baby right up  
against her breast, as tight as she  
could get it. Two bodies were lying  
across a seat, and I saw a baby with  
a big cut on its cheek. Its body came

bumping against the windows. It's  
worse than hell down there."

Atlantic City, N. J., Oct. 29.—A  
train of three electric cars on the  
electric line from Camden to this city  
leaped from the bridge spanning the  
"Thoroughfare," the body of water sepa-  
rating Atlantic City from the main-  
land, just west of this city. The cars  
were submerged in 30 feet of water.  
All who were in the first two cars  
were drowned. Some of those in the  
third car escaped.

The cries of the imprisoned passen-  
gers as the two forward coaches  
plunged into the water lasted but a  
moment, and when the tops of the two  
cars disappeared not a sound was  
heard from those who were being  
smothered by the inrush.

It was stated that fully 80 to 100  
passengers were aboard, mostly all  
crowded into the first and second  
cars. These were entombed. Among  
the passengers were 20 men of the  
Royal Artillery band on their way  
here from Philadelphia, all of whom  
escaped except two.

The train consisted of three new  
electric cars with which the road had  
been equipped. The line is operated  
by the third-rail system. The trains  
began running a month ago, replacing  
steam trains. The run from Camden  
to this city has been made in an hour  
and a half.

At the trestle the train slowed down  
to take the drawbridge. It was then  
running at a good speed. The first  
car appears to have been the first to  
leave the rails.

The train kept to the bridge about  
200 feet, when the forward car broke  
through the guard rail and plunged  
into 30 feet of water. The other two  
cars followed almost immediately, but  
the rear of the third car caught on  
the abutment and hung at the forward  
end in the water. The rear door re-  
mained open, and through this some  
20 or more persons escaped.

Walter Scott was the motorman on  
the forward car, John L. Curtis of  
Camden was the conductor in charge,  
and Ralph R. Wood was the brake-  
man. Scott stuck to his post and  
went down with his train. Curtis and  
Wood escaped. Wood proved himself  
a hero. When the train left the rails  
and was bumping over the ties Wood  
ran to the rear door of the last car,  
threw it wide open and held it for the  
passengers to escape. He held the  
door open until the car slid off the  
bridge, and went into the water with  
it. He then swam to the shore. His  
action in holding the door open prob-  
ably saved many lives.

The conductor does not appear to  
be certain as to the exact number of  
passengers. He had 88 tickets in his  
possession when he was brought to  
this city but he thinks several tickets  
were lost and it is his opinion that  
there were from 110 to 120 passengers  
on the train.

The man who may best be able to  
tell what caused the accident is Daniel  
B. Stewart, 65, the bridge tender.  
Stewart, however, is in no condition  
to talk. The horror of the accident  
has temporarily bereft him of his reason.  
He was the only person who  
witnessed the plunge of the train  
with its human cargo from a close  
point of vantage. The scenes which  
followed caused him to lose his reason.  
When found he could not tell a  
rational story.

When the accident occurred the tide  
was running at flood. Those in the  
first two cars had no chance to es-  
cape, but some passengers in the third  
car, which poised for a brief time on  
the edge of the trestle, escaped. After-  
ward the car toppled over into the  
water, but was not completely sub-  
merged. One passenger, Harry Romer  
of Philadelphia, who got out of this  
car, aided in rescuing several persons.

The "draw" span of the bridge was  
not in exact alignment with the solid  
span because the heavy iron pin  
which holds the two together had  
not dropped into place after the draw  
was closed, following the passage of  
a boat through it a few minutes be-  
fore. The right hand rail was about  
a half inch out of place which gave  
the wheels of the fast rushing elec-  
tric train a chance to push it still  
further away. When the forward  
wheels struck this place the whole  
train suddenly left the tracks and  
took a snake like course over the side  
and hurled itself into the water. Cor-  
oner Gaskill has investigated the  
wreck. He has evidence that will  
probably place the responsibility up-  
on the company because of the ab-  
sence of a guard rail on the bridge.

### FARMERS' POSSE

Armed With Shotguns and Rifles are  
on the Trail of Vandals in  
Indiana.

Hazleton, Ind., Oct. 29.—A posse of  
farmers armed with shotguns and  
rifles and with bloodhounds is on the  
trail of the men who destroyed a corn  
shredder on the farm of Joseph El-  
liott. A number of barns, corn shredd-  
ers and threshing machines have  
been destroyed recently in the vicinity  
of Hazleton. The farmers are excited  
and trouble is looked for if the men  
are captured.

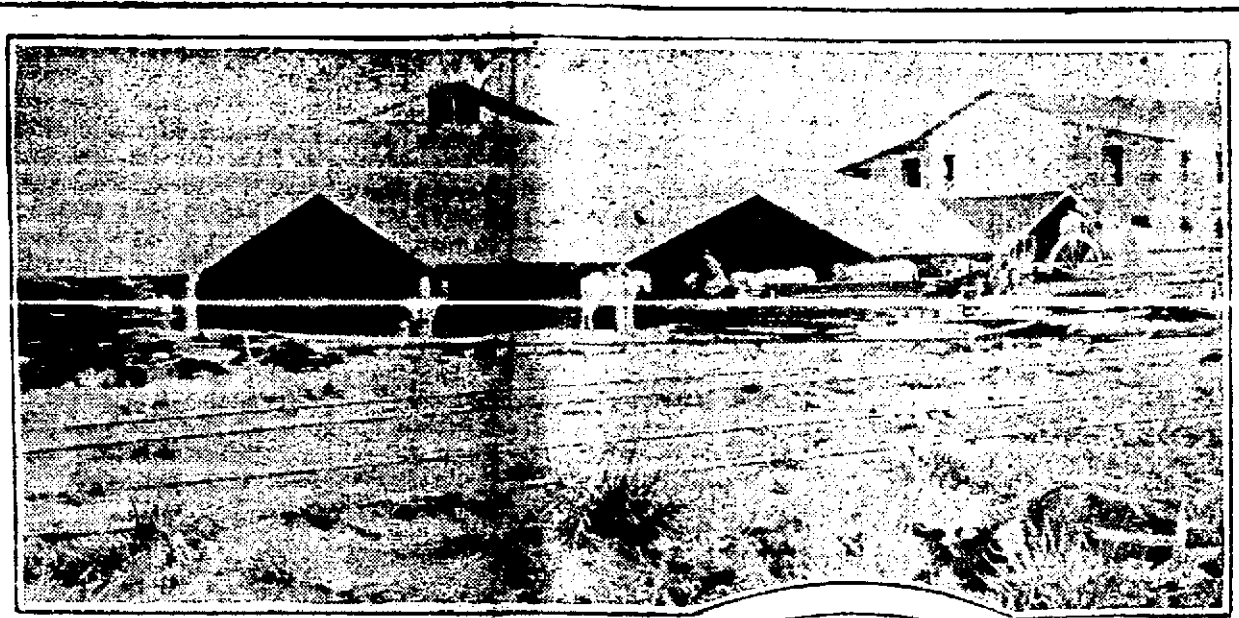

### GORKY AT NAPLES

Pro-Russian Meeting Held by the So-  
cialists—Some Fiery Speeches  
Were Made.

Naples, Oct. 29.—A pro-Russian  
meeting over which Maxim Gorky pre-  
sided was held here by the Socialists.  
There were several thousand persons in  
attendance and Gorky was loudly ac-  
claimed. As he could not speak Italian  
he wrote a short address which was  
translated and read to the meet-  
ing. After a number of fiery speeches  
a resolution was adopted wishing suc-  
cess to the Russian people and urging  
the Italian people not to participate in  
the new Russian loan. At the close of  
meeting Gorky received an ovation.

### ATTORNEY DENIES REPORT

Alleges That Another Woman Has  
Been Impersonating Head of  
Science Church.

Concord, N. H., Oct. 29.—Despite the  
evident confusion into which the lead-  
ers of the Christian Science church  
have been thrown by the reported con-  
dition of affairs at Pleasant View, the  
palatial home of Mrs. Eddy, no at-  
tempt has been made to check the in-  
creasing sensation by having Mrs.  
Eddy appear in public, or be inter-  
viewed by disinterested persons. So  
far the denials of the charges brought  
by the New York World have come  
only from persons most interested in  
having the sensation exploded. All ef-  
forts of newspaper men to get an in-  
terview today with Mrs. Eddy have  
been turned down.

The charges are that Mrs. Eddy is  
infirm and incapable of transacting  
business and that she has been im-  
personated by another woman. Gen-  
eral Streeter, her attorney, says this  
is untrue and the story that she suf-  
fers with cancer is nonsense.

### ELECTION EXPENSES

Perry Belmont Suggests That Com-  
mittees Publish Statements  
After Election.

Washington, Oct. 29.—Perry Bel-  
mont of New York, executive chair-  
man of the publicity bill committee,  
has mailed to James S. Sherman and  
James M. Griggs, chairman respec-  
tively of the Republican and Demo-  
cratic congressional campaign com-  
mittees a letter suggesting that with-  
in a "reasonable" time after the con-  
cluding elections the two committees  
make public statements of their re-  
ceipts and expenditures during the  
present campaign.

### FIVE BUILDINGS

Thrown to Ground by Gas Explosion.  
Two Killed, Many Hurt.

Coffeyville, Kan., Oct. 29.—Two per-  
sons were killed, four were seriously  
injured and 20 more or less injured in  
a terrific explosion of natural gas  
which completely demolished five  
two-story brick business houses here.  
The buildings were occupied by a real  
estate office, three stores and a res-  
taurant. The second floors of all the  
buildings were used as rooming  
houses. The entire block of five build-  
ings was leveled to the ground, and  
only broken bricks, scattered lumber  
and twisted iron remain. A fire broke  
out immediately after the explosion,  
but the flames were quickly extin-  
guished.

### Mistaken For Burglar.

Philadelphia, Oct. 29.—Mistaken for  
a burglar, Clayton B. French, son of  
H. B. French, member of a firm of  
wholesale chemists, was shot and  
probably fatally wounded by W. G.  
Audenreid at the Montgomery inn at  
Bryn Mawr. French lost his key to  
the hotel and was endeavoring to gain  
an entrance through a window which  
opened into Audenreid's room. As  
French stepped through the opening  
Audenreid shot him.

A dispatch to the New York Her-

said:

have assumed power, I will make

### HOW THE PENNSYLVANIA DECLARES ITS DIVIDEND

Philadelphia, Pa., Oct. 29.—In view  
of the discussion of a possibly in-  
creased dividend by the Pennsylvania  
Railroad, the Company makes public  
its method of declaring all its divi-  
dends. This policy derives rather  
special interest from the fact that the  
company has never failed to pay an  
annual cash dividend to its stock-  
holders.

For many years, it has been the  
fixed policy of the road for the di-  
rectors to refuse to discuss the question  
of dividend until the statements and  
earnings and expenses for the pre-  
ceding six months have been completed  
and are ready for submission to the  
board.

When these figures have been made  
up, meetings of the finance committee  
and of the board are called. The for-

mer meets at 11 o'clock, goes care-  
fully over the statements, and determines  
upon its recommendation to the board  
as to the rate of the dividend to be  
paid based upon the earnings of the  
previous six months. This committee  
continues in session until 12 o'clock,  
when, without leaving the room, the  
members appear before the board of  
directors, which meets at that hour.  
The report is then considered and the  
necessary action is taken by the board  
in declaring the dividend.

Thus there is no chance for any leak  
of information or for any one or more  
of the directors to know what the  
dividend will be, and the announce-  
ment is given to the public immedi-  
ately after the adjournment of the board.  
Any attempt, therefore, to forecast  
the dividend rate for any given six  
months is merely guesswork.

### OHIO SAILOR

Aroused From Slumber in Park and  
Accused of Murder.

New York, Oct. 29.—Clifton C.  
Clark, 21, a sailor on the United  
States battleship Indiana, was arrest-  
ed when he was found asleep on the  
grass in Riverside park and near by  
the lifeless body of an unidentified  
woman. A coroner's physician who  
conducted an autopsy said that in his  
opinion she was murdered. Five of  
the ribs were broken and there were  
bruises on the shoulders. Clark was  
held as a suspicious person. He told  
the police he had been drinking and  
could not remember having been in  
the company of the woman. Clark  
enlisted in the navy at his home in  
Columbus, O., two years ago.

### GIRL'S SUICIDE IN CATHOLIC CHURCH AT KANSAS CITY

Kansas City, Oct. 29.—Miss Nettie  
Brown, 25, said to be the daughter of  
D. C. Brown of Lincoln, Neb., commit-  
ted suicide in the Catholic cathedral  
by taking acid. Miss Brown came to  
Kansas City about three weeks ago  
and registered at one of the leading  
hotels. She remained several days.  
Later she changed her hotel. At the  
latter place, without funds, she asked  
the hotel people to telegraph to her  
"guardian" in Omaha. The answer  
from the Omaha man satisfied the  
hotel authorities that he was not re-  
sponsible for her and she was re-  
quested to leave. She attended ser-  
vices at the cathedral. It was noticed  
that she remained after the congre-  
gation left, but nothing was thought  
of it. Later she was discovered in a  
pew dead.

in a hurricane off Goto Island and  
100 others were injured. Two hun-  
dred and sixty-eight coral fishing  
boats were caught in the tempest and  
only 38 of them lived through the  
storm. Of the 1,100 men aboard the  
various boats 822 are reported dead.

### DR. W. D. MILLER NEWARK CITIZEN IS TO RETURN

DEAN OF DENTISTRY IN GER-  
MANY ACCEPTS CHAIR IN UNI-  
VERSITY OF MICHIGAN.

### WAS BORN NEAR ALEXANDRIA

German Dental Societies Demand His  
Retention—Has Had Remark-  
able Career.

Dr. Willoughby D. Miller, a former  
Newark man, whose boyhood was  
passed at his birthplace near Alexan-  
dria, will accept the chair of den-  
tistry in the University of Michigan.  
Dr. Miller is known as the Dean of  
Dentistry in Germany, and he has  
made a remarkable record in his  
profession in Europe. A press cable-  
gram from Berlin has the following  
to say of Dr. Miller:

Berlin, Oct. 29.—Prof. W. D. Miller  
the foremost living authority in den-  
tal science, will leave his chair of  
dentistry in the Berlin university,  
having accepted a similar position in  
the University of Michigan. That his  
loss is felt throughout Germany is  
shown by the meetings of protest be-  
ing held by dental societies, who de-  
mand his retention.

Prof. Miller was born near Alexan-  
dria, Licking county, Ohio, in  
1852. He lived on a farm for twelve  
years, but in 1865, his family moved  
to Newark of the same state. Miller  
graduated from a high school in 1871  
and four years later took the degree  
of bachelor of arts at the University  
of Michigan, which, after a period of  
21 years, has called upon him to  
come back to his alma mater.

Dr. Miller took a course in den-  
tistry at the University of Pennsyl-  
vania, graduating in 1879. Coming  
to Berlin he became the assistant of  
Dr. Abbott, but at the same time  
commenced a course in biology under  
the now famous Robert Koch.

Prof. Miller's career in Germany is  
all the more remarkable, as at one  
time there was a bitter opposition to  
him by German dentists, who re-  
peatedly sent petitions to the minis-  
try of education urging his removal.  
He is now regarded, not only as a  
great scientist, but the father of Ger-  
man dentistry as well. The editor of  
a leading publication at one time sug-  
gested that the work done in den-  
tistry between the years 1880-1890  
should be called the "Miller decade."

Carnegie's Return.  
New York, Oct. 29.—Andrew Car-  
negie, accompanied by his wife and  
daughter, returned from Europe on  
the steamer Celtic.

### LINGAFELTER BOND

Signed Late Saturday Night and Ex-  
Banker Was Released from the  
County Jail.

Contrary to expectation, Clerk of  
the Courts J. W. Hursey received the  
written order from Judge Campbell  
of Ashland, fixing the bond of J. F.  
Lingafelter, who has been granted a  
stay of sentence by the Circuit court  
for forgery in connection with the  
failure of the Homestead Building  
Association, at \$10,000, late Satur-  
day night. Justification of surety was  
made as follows: Anna Lavin, \$3,000;  
Harriet Smyers, \$4,000; Lida J. Ro-  
nan, \$12,000; C. D. Beckman, \$15,000.  
Lingafelter was immediately re-  
leased, and was able to spend Sun-  
day at home instead of in jail.

### CAB TRAGEDY IN CITY OF NEW YORK MAN ARRESTED

LAURA OSTEN BELIEVED TO BE  
MORTALLY WOUNDED BY A  
PISTOL SHOT.

### BROWN ATTEMPTED SUICIDE

Driver Said He Heard Couple Quar-  
reling—Both Members of Prom-  
inent Families.

New York, Oct. 29.—Laura Osten,  
23, of East Orange, N. J., was shot  
and it is believed mortally wounded  
while riding in a cab with Louis R.  
Brown on Broadway. Both are mem-  
bers of prominent families. Brown,  
who is 21 years old and also a resi-  
dent of East Orange, was arrested.  
According to the police Brown at-  
tempted to kill himself, but was pre-  
vented by an officer. Brown is alleged  
to have said that the two quarreled  
over the woman's repeated refusals to  
marry him. Miss Osten met Brown  
by appointment and the two dined to-  
gether. Later Brown summoned a  
cab and drove up Broadway. The cab  
driver, who said he heard the couple  
quarreling, was attracted by a muf-  
fled sound and, climbing down, opened  
the door. As he did so the woman  
fell to the street unconscious.

### UNRECOGNIZABLE

Are Bodies of Crew of French Sub-  
marine Which Sank on October  
16 at Bizerta.

Bizerta, Tunis, Oct. 29.—The bodies  
of the crew of the French submarine  
boat Lutin were removed from the  
vessel. The Lutin sank off this port  
Oct. 16 with 14 men and two officers  
on board. The bodies of Lieutenant  
Fepoux and four men were found  
amidships, six bodies were in the stern,  
and the remainder in the bow. All  
were in a horrible condition owing to  
the action of acids. The only means  
of identification was by objects found  
on the corpses. Most of them were  
barefooted. The indications are that  
they met their death instantly. The  
opinion prevails that the Lutin tried  
to come to the surface too rapidly and  
that her stern consequently struck on  
the bottom, which caused the rivets  
to start and plates to burst. Six leaks  
were found in the hull.

### ASYLUM ATTENDANT

Convicted After Long Deliberation by  
Jury in Kentucky—Must Serve  
One Year.

Lexington, Ky., Oct. 29.—After 13½  
hours' deliberation the jury which  
tried Daniel M. Adams, a former at-  
tendant at the Eastern Kentucky asy-  
lum, charged with the murder of Fred  
Ketterer, a patient there, returned a  
verdict finding Adams guilty of assault  
and battery and fixing the punishment  
at one year's imprisonment in the  
county jail. The verdict is criticised  
adversely by many people. Fred  
Pharis, charged with the same murder,  
was sentenced to five years in the  
penitentiary last week. M. W. Lug-  
gett, charged with the same crime,  
will be tried this week.

### WHAT ALASKA WANTS

Delegate Cale Reaches Seattle on His  
Way to Washington—Wants  
Self Government.

Seattle, Wash., Oct. 29.—Delegate  
Thomas Cale of Fairbanks, Alaska, is  
in the city on his way to Washington.  
"The people of Alaska," he said, "are  
more interested in securing a terri-  
torial form of government than in  
anything else that is before them at  
present. We don't mean to go into  
all the ramifications of local self-gov-  
ernment, into townships, counties, etc.  
We simply wish, and it is a natural  
want of American citizens, to be em-  
powered to legislate for ourselves."

### BABE'S BODY

Found In Suit Case That Was Sent to  
Fictitious Address.

Philadelphia, Oct. 29.—The em-  
balmed body of a six-months-old baby,  
found in a dress suit case at the Ad-  
ams Express company's office in this  
city, furnished a mystery which the  
authorities are trying to solve with  
the aid of the Newark, N. J., officials.  
The dress suit case was found by in-  
spectors who were going over un-  
claimed articles preparatory to having  
them sold within a few days. The  
records of the express office show that  
the case has been in the possession of  
the express company since July 1,  
and that it was received from New-  
ark, N. J. It was addressed to M.  
Jones, 1575 Bainbridge street, Phila-  
delphia, which number the police say  
does not exist.

# WHO SHE WAS

## SKETCH OF THE LIFE OF LYDIA E. PINKHAM

**And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused it to be Offered for Public Sale in Drug Stores.**

This remarkable woman, whose maiden name was Estes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies, calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest, fields and orchards vegetable foods of all kinds; so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and weaknesses of the body, and to prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses peculiar to the female sex, and Lydia E. Pinkham's friends and neighbors learned that her compound relieved and cured and it became quite popular among them.

All this so far was done freely, without money and without price, as a labor of love.

But in 1873 the financial crisis struck Lynn. Its length and severity were too much for the large real estate interests of the Pinkham family, as this class of business suffered most from fearful depression, so when the Centennial year dawned it found their property swept away. Some other source of income had to be found.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world.

The three sons and the daughter, with their mother, combined forces to

restore the family fortune. They argued that the medicine which was so good for their women friends and neighbors was equally good for the women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped on the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkhams sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising and from that time the growth and success of the enterprise were assured, until today Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward years ago, but not till she had provided means for continuing her work as effectively as she could have done it herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every case that came to her attention. The case of every sick woman who applied to her for advice—and there were thousands—received careful study, and the details, including symptoms, treatment and results were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter-in-law, the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its originator passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With women assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health," freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham's Vegetable Compound; made from simple roots and herbs; the one great medicine for women's ailments, and the fitting monument to the noble woman whose name it bears.

## STATE NEWS

**Defiance, O., Oct. 29.**—A fire started by furnace in the basement partially destroyed Trowbridge hall, the young women's dormitory of Defiance college, and 55 girls had a narrow escape. The loss is about \$10,000, fully covered by insurance. Two young women of Bluffton, O., occupying a room on the first floor immediately above the furnace room, were awakened and saw flames all about them. They got out of the second-story window by taking a clothes line, tying it about a radiator and then sliding down to the ground. Each girl needed surgical treatment for her hands. The building was dedicated a year ago and was the gift of Lyman Trowbridge, a wealthy man of Defiance. It was considered the finest structure of its kind in Ohio. It was modern throughout. The entire west end of the building was razed. The contents were not insured and the college will lose heavily. The building and contents cost about \$30,000. At a meeting of the local members of the board of trustees it was decided to rebuild at once. The majority of the girls lost all they had.

**Foundering Scow Beached.**  
Cleveland, O., Oct. 29.—After being tossed about for hours the scow that broke away from the tug Bangs off Fairport, O., during the storm Saturday, went on the beach near that port and her lone passenger, Captain George McElroy, was rescued. He was nearly dead from exposure. Sunday the storm continued practically unabated but no boats were reported in trouble. All had taken warning and none but the passenger steamers and a few big freighters ventured out.

**Taft Leaves It to Friends.**  
Columbus, O., Oct. 29.—Secretary Taft, accompanied by Congressman Theodore E. Burton, came to Columbus and from here went to Logan and Lancaster, O., to speak at afternoon and evening meetings. Secretary Taft stood firmly by his determination not to discuss Ohio state issues. When the question of his endorsement for the presidency by the next Ohio state convention was pressed on the secretary he said, "I am not responsible for the acts of my friends."

**Wrong Signal Given.**  
Springfield, O., Oct. 29.—It is claimed that a telegraph operator gave a wrong signal to the eastbound train, thereby causing the freight wreck at Durbin, on the Peoria division of the Big Four, in which four trainmen, all of Indianapolis, lost their lives. Wrecking crews worked all day Sunday clearing away the wreckage.

## A TRIBUTE TO GOV. PATTISON

By Republican Congressman at Columbus That Was Loudly Cheered by His Audience.

(Columbus Press Post.)

In a beautiful essay of the late Governor Pattison Congressman Theodore Burton of Cleveland, in his speech at Memorial Hall Friday night voiced the sentiments of his audience indicated by their frequent and prolonged applause. He said:

"Governor Pattison stood out in contrast to so many of our politicians today. He was a man who stood for principle, not office. While I differed from him politically, no one mourns more deeply his untimely death. That it was a great loss to Ohio and to the cause of truth, even his strongest opponents do not deny."

"To a character of saintly purity he added the forcefulness of the man of successful business. His probity of conduct, his unflinching obedience to the dictates of his conscience, his utter disregard of what might have seemed at the time his own personal advantage, were unswerving and unchangeable. To have championed as he did, on many occasions during his career causes that were unpopular because he believed them right and only because he believed them right, required courage of the highest order. His brief term of office and his conduct while in the chair of governor, indicated that he would in no way depart from his previous record."

"Nowhere in Ohio's history will you find an instance of an official who has had such slight control of the affairs of the state who has left so deep an impression on the character of its people. The beauty of the character lives after him in the inspiration it offers to young men for nobility of action; his deeds in office have been few, but his influence has been above compare."

In the honor roll of fame his name stands high above the multitude. As long as honesty is cherished among men; as long as nobility of character rises above the petty commercialism of our age; as long as the fair fame of Ohio flourishes, his memory will be revived in the minds of his fellow citizens."

## MACHINE REPLACES SHORTHAND WRITER

Central Typewriter-Telephone Exchanges to be Established in Big Office Buildings and Hotels.

New York, Oct. 29.—Plans now under way will make it unnecessary for business men to depend upon private stenographers or typewriters. Central typewriting exchanges, to which letters can be dictated over the telephone circuit and returned for signature in a few minutes, are to be established in large office buildings and hotels.

Such a scheme has been made practical by means of the telegraphophone, which not only makes a perfect record of the human voice but also records everything that passes over ordinary telephone. These records are stored upon a thin steel wire or disc and can be reproduced on an indefinite number of times or removed when there is no further use for them.

Each of the central exchanges will have a number of telegraphophones and a staff of typewriter experts and trained linemen. When the business man or the guest, in a large hotel wishes to dictate he will pick up the receiver of his telephone, and ask to be connected with a telegraphophone in the exchange. By means of a small switchboard he will have complete control of the machine to which he is dictating in the exchange. If it should be necessary to make any changes in the letter a push button is pressed, which brings a pair of magnets, stronger than those which made the record, in contact with the wire and any part or the whole of the letter is immediately wiped out. In the same way records of dictated letters are wiped out as soon as transcribed, so that the machine is always ready for use at any time.

As soon as the dictation is finished the typewriter operator places the telegraphophone sounders to his ears and transcribes the records which have been made, returning the letters to the office from which they were dictated. The matter transcribed might be in English, German, French or any other language. It might be legal, scientific or technical full of difficult words and phrases which would tax even the most highly educated and expert stenographer to take down in shorthand with rapidity and accuracy. When the central typewriting exchanges are established, telegraphophones will enable business men to dictate letters at a great speed, in any language and on any subject.

## AMUSEMENTS

### THE MERRY MILKMAIDS.

The second performance of The Merry Milkmaids at the Auditorium Saturday night was fully as enjoyable as the first and was well attended in spite of the unpleasant weather. The production of the operetta will net St. Pauls Choral Society a very neat sum, it is understood, and so successful has it been that arrangements have been about completed for giving it at the Weller theater in Zanesville on Thursday night, after which it may be repeated here on Saturday.

All of the principals in the piece were very good, including especially entertaining impersonations of the role of "Juanita" by Miss Elizabeth Weisgerber, "Janet" by Miss Irene Henthorne, and "Anita" by Miss Alice Gray.

Jay MacFarland and Lester Gardner in their inimitable dancing of the "sailor's hornpipe" were heartily applauded and did the specialty with the cleverness of old professionals.

The cake was won Saturday night by Miss Mary Carle and her partner, Clyde Ealey. Possibly next in gracefulness aside from the leaders were Miss Ethel Bonner and Homer Batch.

### SWELL ELEGANT JONES.

It is indeed with pleasure that theater goers of Newark look forward to the coming of Ezra Kendall and his latest offering "Swell Elegant Jones." In the title role Ezra Kendall has a typical Kendall part, and what more could we ask?

There will be no advance in prices when Mr. Kendall plays here Wednesday, October 31 at the Auditorium and it would be advisable to order your seats in advance, if we can believe what other cities say, "his greatest triumph."

Mr. Kendall plays the title role of "Swell Elegant Jones" on whom Dame Fortune has bestowed a million dollars through an investment in a mine, and is a very happily married man, until he takes a journey to look after his mining interests, and remains away for seven months. In the meantime a scheming lawyer and former suitor learns that Jones is away, and that he and his wife are not on the very best of terms, starts scheming to separate them, and when Jones does return he places him in compromising positions by the aid of a female detective, and Mrs. Jones, whose mind is poisoned by the evidence that confronts her, starts a divorce. It all comes out right in the end and ends happily as all good plays should.

### NEXT THURSDAY NIGHT.

In the course of the play "When Knighthood Was in Flower," as in the book, the action centers about Mary Tudor, Princess of England, the madcap sister of Henry VIII. This role is portrayed by Grace Merritt in the most captivating manner in the world. It is a difficult role that Miss Merritt essays, but one to which she proves herself equal in every particular. Auditorium November 1.

### ORPHIUM THEATER.

The sacred concert at the Orphium given by Marsh's Military Band on Sunday afternoon and evening was very well attended and pleased everybody. This week's vaudeville bill will surely please as such well known acts as Patchin and Clifton, comedians, Harlow and Rollison, comedy musical artists, Gaylor and Graff, refined sketch artists, St. Justian, the world's greatest bag puncher, new illustrated songs and 1000 feet of new motion pictures are to be seen. Remember Friday evening is amateur night. Saturday evening a lady's silk dress will be given away free of charge.

The easiest way to prepare a quick breakfast is to use Mrs. Austin's Pancake flour.

Ladies, free admission at the Crescent Rink tonight.

## \$3,000 NEEDED

Newark Y. M. C. A. Trustees Ask for Subscriptions to Defray the Current Expenses.

The annual budget of the Y. M. C. A. adopted some time ago calls for an expenditure of \$8,500. Of this amount \$5,500 comes through the regular channels of income, membership fees, rents, etc., the balance, about \$3,000, must be secured by subscription from the business men and citizens. The low fee that the Association charges in order that the poor boy as well as the rich can enjoy its privileges makes it necessary to depend upon the support of generous hearted citizens in furthering the noble ends and great usefulness of this great institution.

The deficit is larger this year than usual because it has been felt necessary to employ a special secretary to develop the Junior department. The proper attention to this department has formerly of necessity been very much neglected.

It is hoped that the business men will respond liberally when called upon.

**School House Too Cold.**  
Owing to some difficulty with the gas burners at the High school building, it was made necessary to dismiss all of the students for the forenoon Monday. In the morning the temperature in some of the rooms was over 52 degrees.

**Gold Watch Stolen.**  
George Cross, of 198 West Church street, notified the police department that his residence had been burglarized and that the burglars had stolen a fine gold watch, a revolver and a valuable ring. Mr. Cross found his trousers hanging on the back fence.

**Taffy Pulling.**  
A delightful taffy pulling was held Saturday afternoon at the home of Mr. William Deininger on Buena Vista street, in honor of Miss Jessie Browne, the well known school teacher. Those present were Miss Jessie Browne, Mrs. J. H. Deininger, Mrs. L. Lescalleet. The pupils were Wm. Deininger, Ned Varner, Frank Ryan, Victor Arnold, Walter Noling, Albert Browning, Sidney Jones, Harvey Lescalleet, Eddie Hankey, Helen Herndon, Florence Hall and Anna Eaton. Prizes were given for the best spelling to Albert Browning, Florence Hall getting next to the booby prize and Helen Herndon the booby prize.

**It Wasn't Robbery.**  
When some customers in Davey Bros. saloon at High and Locust streets, saw a man going through the pockets of a drunken man in the place and take his watch away from him they thought the man was being robbed and called in the police. Officer Bob Leonard sent both men to the police station, where investigation developed the fact that Otto M. Saltz of Summit Station was the drunken one and the one who was going

through his pockets was his brother John, who took his watch away from him for safe keeping. Saltz was locked up for drunkenness and his brother was released.—Columbus Press Post.

**Scarlet Fever Appears.**  
A case of scarlet fever has made its appearance at 141 South Cedar street.

**Four Directors Elected.**  
At the annual election of directors for the Licking County Agricultural Society held on Saturday the following were elected: J. F. Lock, Newton township; J. C. Morrison, Madison township; W. H. Kussmaul, Granville township; H. H. Baird, Lima township.

**Left Arm Broken.**

**A. I. U. Reception and Dance.**  
The A. I. U. Dance club will give its first reception and dance tonight at the hall. The hall has been artistically decorated and with an elaborate display of colored electric lights will give a fine moonlight appearance. Marsh's orchestra will furnish the music. The dance is for members and their guests.

**Body of a Little Child.**  
A call was received at the police headquarters stating that a well developed child had been found in Dry creek, north of the city. Chief Sheridan and Officer Carroll went to the Dry creek bridge and fished the body out of the water. The body was that of a female child and was probably six months old. Dr. Marriott says the body of the infant had been in the water from 6 to 10 hours.

**Attempted Robbery.**  
Word has been received here of an attempt to rob the postoffice and general store of R. T. Irwin, who is also the postmaster, at Black Hand, Saturday night. The robbers gained an entrance to the building by forcing the front door. Mr. Irwin says he has missed nothing either in the postoffice or store and thinks the robbers were frightened away. Mr. Sheppard came to Newark Sunday and bought new locks for the doors.

**At Boys' Industrial School.**  
Judge Brister has just returned from the Boys' Industrial school near Lancaster where he spent Sunday. He was much pleased with the appearance and management of the school and thinks that it is in excellent hands under Supt. C. B. Adams and his capable wife. There are over 1000 boys in the institution and they look healthy and happy. They are all going to school and learning useful trades. The institution bakes and consumes 600 loaves of bread daily.

**Fine Band Concert.**  
Marsh's Military Band, which was recently organized in this city with 20 of the best musicians obtainable, gave the first of its series of sacred concerts for the benefit of the City Hospital at the Orphium Sunday afternoon and evening. The theater was packed and the concert was one of the finest ever given by a local band. Every one of the musicians seemed to take a special pride in making a success of the concert and the purpose was accomplished. Prof. Charles Smith, conductor, showed much ability as a director and brought about many excellent effects. The new band has come to stay and at the present rate will be the leading musical organization of the city for some time to come.

## THE MODERN PSALM OF LIFE

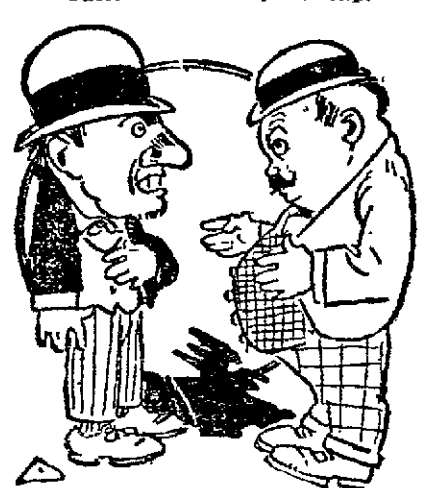

Tell me not in mournful numbers  
To work big schemes is a pipe dream  
If thou dost postpone thy slumbers,  
Nor take people as they seem.

Life is real! Life is earnest!  
Only in a sure thing trust.  
Dust go to, to dust returneth;  
Always be out for the dust.

Art is long, and time is fleeting,  
And art pays no dividends,  
So waste time not on its greeting—  
Use it strictly for cash ends.

Lives of fakirs all remind us  
We can live on nerve sublime  
And, lo! laden, leave behind us  
Other people "doing time."

Let us then be up and doing—  
Doing every one we can,  
We will have luck us pursuing  
"Doing" thus our fellow man.

**Red Revenge.**  
"So you spurn me!" he cries in wrathful woe. "But I shall have my revenge!"

"Ha, ha!" laughs the heartless maiden.

"You may laugh now, but wait! In the four years I have known you you have given me six photographs of yourself. Each one of these I shall have enlarged by the cheap crayon process and presented to your various friends and relatives."

Leaving the frightened girl in a swoon, the cruel swain departs with the melodramatic tread of one who will stop at nothing.—Judge.

**Sad Story.**  
"Ah, my poor man," said the kind housewife. "It is really true that you once had a position and lost it because you were too tender hearted."

"Yes, mum," sighed the tattered wayfarer as he brushed away an imaginary tear. "I was cook in an eating house."

"And—and why did you leave?"

"Because I didn't have the heart to smother a beefsteak, mum."—Detroit Tribune.

**Her Affinity.**  
"Katherine, you are such a pronounced vegetarian."

"Yes, dear."

"Well, the new boarder around the corner will just suit you for a husband."

"Gracious! Why so?"

"Because he has tomato-like cheeks, pumpkin-colored hair and carrot whiskers."—Chicago News.

**Driving It Home.**  
Daughter—Have you found out yet what it was that papa cut out of the paper?

Mother—Yes. I bought another copy. I've read it all through, but to save my life I can't see anything wrong in it. It's an article on the vulgarity and silliness of buying furs that are beyond one's means.—New York Press.

**More Reform.**  
"What do you think of the spelling reform?"

"Well," answered Farmer Comtossel, "this idea of shortening the words is a start in the right direction. But what those speakers up to Washington want to start is a movement for shorter sentences and fewer of them."—Washington Star.

**Honors Easy.**  
"What's the matter?" demanded the customer as the tobaccoist examined his nickel. "That coin's all right."

"Oh, it'll pass, I guess," replied the tobaccoist, "but it isn't as good as it might be."

"Well, neither is this cigar."—Catholic Standard and Times.

"Well, it's just this way," said the sportsman. "The man who can go out hunting day after day and not care whether he gets anything or not has the right stuff in him."

"Yes," remarked Sinnickson, "especially when he's hunting for work, eh?"—Philadelphia Press.

**An Epitaph.**  
Some one haunts in the following epitaph.

Beneath this sod lies Willie Green.  
A very reckless little fellow.  
He ate six apples like his name;  
He couldn't wait till they got better.  
—Milwaukee Sentinel.

**One Man's Theory.**  
"Money makes the mare go," quoted the society lady of cheer.

"Due to her sex, daughters," rejoined the man who acted as freight payer for a wife and three grown daughters.—Chicago News.

**Didn't Look That Way.**  
"Archie is fairly going crazy over his new automobile."

"That's strange. Every time I've seen him he has been going crazy under it."—Pick-Me-Up

**IN POLICE COURT**  
John Ridenour was given a hearing Monday on a charge of assaulting his wife. He was fined \$10. He made a plea for leniency and stated that all his troubles dated from 11 months ago when he got married.

James Mullen was arrested on a B. & O. train Saturday night on a charge of being drunk. He drew \$5 and costs.

The curious piglike animal known as the babrussa, has most remarkable tusks, which have perplexed all students of animal life. As far as can be discovered, these tusks are useless to their owner. On the other hand, in collecting tufts of straw, grass and litter or all kinds, they seem to be an intolerable nuisance.

**Possible Solution.**

"The Republicans failing to nominate a candidate known to stand for high moral ideals, can expect little else than defeat at the polls this fall. The promise to secure appropriations for a few public buildings will not bolster up the INTERPERANCE AND IMMORALITY of any candidate."  
—Wooster Herald.

## BROKEN PROMISES BY SMYSER TO RAILROAD MEN

The many promises made by Martin Luther Smyser to railroad men when he ran for Congress two years ago and the large vote he got from the men in that service is one of the noted features of that campaign. And now the failure of Smyser to fulfill those promises is becoming one of the prominent features of this campaign. The stand taken against Smyser by President Gompers of the Federation of Labor, showing up the Congressman's record and conduct in failing to carry out his promises to railroad men, and neglect of their interests, has caused Smyser to write numerous letters to parties over the district in an endeavor to deny his hostility to the interests of labor. A large number of these letters have been sent to railroad men in Newark under date of Wooster, Ohio, October 22, in which Smyser makes the following statement:

"As to my failure to answer Mr. Gompers, I beg to say that I did not answer his letter because it seemed to me that the interrogations from organized labor in its various branches, would more properly come from the various organizations of the district. In other words, that organized labor in the 17th District knew more of its needs by way of legislation, than any one else could possibly know; and I further thought that your particular representative at Washington, Mr. Fuller, whose friendship I had, could speak for you with more accurate knowledge than Mr. Gompers."

Here, then Mr. Smyser refers to his friend Mr. Fuller, the railroad men's representative at Washington, to dispute what President Gompers said regarding Smyser's record.

Let Mr. Fuller speak, then, for Smyser himself says he can "speak

with more accurate knowledge than Mr. Gompers." Mr. Fuller has written letters to the officers of the railroad men's organizations at Newark and Dennison, and Smyser himself having referred to him in this pointed manner, must accept what Fuller says.

Mr. Fuller contradicts Smyser absolutely. He charges Smyser with refusing to answer his (Fuller's) letters just as Smyser refused to answer the letters of Gompers. In regard to favoring legislation in the interest of railroad men, Mr. Fuller distinctly says that "when he (Smyser) was appealed to he simply ignored our appeal." To this statement Mr. Fuller adds:

"Mr. Smyser's action in this connection was a failure on his part to carry out a written pledge made to a large and very important part of his constituency."

Mr. Fuller concludes his letter to the Newark railroad men in these words: "I believe that all fair-minded laboring men who have an interest in legislation for their own betterment will agree that Mr. Smyser's record is not one which entitled him to the support of either the railroad employees or any other class of workers."

H. R. FULLER,  
Legislative Representative.

Does Smyser stand for Roosevelt, or does he stand for his old political chum, Foraker, who is now more afraid of the President's "greed of power" than he is of the trusts' "greed of avarice."

## MAKE NO MISTAKE IN YOUR BALLOT

Election judges say that many Newark men lose their votes by mistakes in marking their ballots. Very few make mistakes in marking a "straight" ticket, which is done by placing an X mark in the circle under the emblem at the head of the ticket, but errors are common when the elector votes a "mixed" ticket. While there are two ways of voting a "mixed" ticket, this way is the safest and surest: "PLACE AN X MARK IN THE LITTLE SQUARE AT THE LEFT OF EVERY NAME YOU WISH TO VOTE FOR. Then your vote is counted for each name so marked and for no others."

If Foraker and Charles Dick succeed in fooling the people into a Republican majority in Ohio, they will carry that back to Washington next winter and hold it up before the Senate as an endorsement of their course last winter in fighting Roosevelt's efforts against combines. The only way to uphold Roosevelt is to vote the Democratic ticket. The Democrats stood by Roosevelt when Foraker and Dick were fighting him. And all who read and remember, mind how the President had to form a combination with the Democrats, with Senator Ben Tillman, a Democrat, as spokesman, in order to get his railroad rate bill through. And they also remember J. B. Foraker fought it to the last and voted against it.

## The Difference.

There is a wide difference between the great Republican leader, Congressman Burton, of Cleveland, and the machine stand-patter, Martin Luther Smyser. In his recent Columbus speech Mr. Burton said:

"But when manufacturers are selling products abroad for less than they are at home, that is a question we ought to look after. It is all right for them to sell for less abroad than at home at certain times, but when it is a stated policy year after year, it is not to be tolerated."

"That steel rails, and building materials made by American manufacturers should be sold in Mexico and Europe cheaper than they are at home, is not right. Then when the supply is scant, as in the case of lumber, we ought to look over the question. With our rapidly disappearing forests it is a question whether the protective tariff is not a destructive tariff rather than a protective one."

If those very same utterances had proceeded from the lips of a Democratic leader, our vehement Smyser would have howled "free trader" and branded him as a "soup house" champion.

For the first time, the positions of the Democratic and Republican tickets on the Australian ballot this year will be transposed. The Democratic ticket comes in the first column, the Republican in the second place on the ballot

## Judge E. M. Wickham.

Hon. E. M. Wickham, one of the two Democratic candidates for Common Pleas Judge in the first subdivision of the Sixth Common Pleas district, embracing the counties of Licking, Delaware and Knox, has a record which is truly enviable. Through his integrity, broad ideas of justice, and learning of the law, he is most fully equipped to act as a jurist in this district, as has been shown since his first election to the judiciary when he assumed his duties in that capacity in the winter of 1897, being at that time the youngest man ever elected to the office in this district.

Judge Wickham was born in Delaware county in 1859, the son of distinguished and patriotic parents and a descendant of most highly respected ancestors. He is essentially a Democrat in every sense of the

JUDGE WICKHAM.

word, his ancestors having adhered to the sterling principles of Democracy ever since the founding of the party. In 1889 he began the study of law in connection with his school duties under the preceptorship of Hon. F. M. Marriott of Delaware, and in 1891 was admitted to the bar. Later he rejoined Mr. Marriott and set about his duties as a member of the law firm of Marriott & Wickham.

In July, 1896, at the Common Pleas convention held in Centerburg, O., Judge Wickham was nominated on the first ballot as one of the two Democratic candidates for the office of Common Pleas Judge of the district, and in the subsequent election he received more votes than either of the two very strong candidates placed in the field by the Republican party. In December of the same year the law partnership with Mr. Marriott was dissolved by mutual consent, in order that Mr. Wickham might be free to perform the duties which he had been called upon to assume.

During Judge Wickham's practice in the Common Pleas and Circuit courts of his home, and adjoining counties, he has been very successful having had charge of many very important cases. He has always been regarded as an able adversary by opposing counsel, in trying cases, and enjoys the esteem of all of the learned gentlemen of the district bar and others who have had the pleasure of his acquaintance.

Judge Wickham is a fine lawyer, an excellent scholar, a genial and obliging, yet dignified, gentleman. His clear judgment in legal matters eminently qualifying him for the high position to which he has already been called and for which he is now again a worthy candidate.

Judge Wickham is the running mate of Hon. T. B. Fulton of this city. The party is fortunate in being able to present the names of two such capable and honorable men for the high office of judge of the Common Pleas Court.

Something sounding like a White House announcement is made that Postmaster General Cortelyou, who is to enter Mr. Shaw's shoes, will quit politics. That is, he will finally yield to the properties of the affair, and after having performed his function in receiving the diverted insurance premiums of the people, many of whom were, and are, Democrats, will now relinquish the place of Republican National chairman. If that

be quitting politics, it is a Rooseveltian stab at Shaw, for his incumbency at the treasury has meant one long servility to Wall street, and the devotion of his spare time to partisan oratory.

It is a matter of history that seventenths of the leaders who stood with Lincoln in his day died Democrats.

Mr. Voter, are you one of the hundreds of Licking county men who had your vote thrown out by the judges last November? Many in attempting to vote a "mixed" ticket made blunders that caused the whole ballot to be thrown aside by the election officers. The one sure and safe way to mark a mixed ticket is to place an X mark in the square space at the left of each name for which you wish to vote.

Hundreds of Licking county voters had their ballots thrown out by the judges at the last election because of errors in marking a "mixed" ticket. While there are two ways of voting a "mixed" ticket, this is the safe and sure way: place an X mark in the little square at the left of EACH name you wish to vote for.

## MR. JOHN BAUSCH

Of the Molders' Union, Writes a Pointed Card That Speaks for Itself.

An article in the American Tribune of Saturday calls us henchmen for the reason that we introduced a resolution endorsing the American Federation of Labor. We are not as much henchmen as men, supposed to be good union men traveling nearly a week in the interests of a man who voted against the eight hour bill, and also the immigration bill in the last Congress. Such work as this ought to be condemned by all good union men. On October 14, Mr. Flohr called a meeting to order in three minutes after the regular hour and immediately called out "no quorum," when I have known him to wait half an hour. Only a short time ago he held a meeting when no quorum was present. At the last meeting Flohr had no right to act as president, not being a delegate. Why was this done, was asked by several delegates who do not know.

JOHN BAUSCH,  
Mover of the Resolution.

# The Wooing of Woman

Began in the Garden of Eden and has been going on with all its delicious consequences ever since. It is the starting point of a woman's life, the hour in which the sun really begins to shine.

Be she savage or civilized it is the dawning of the great light for which every woman longs. The story of how the world in every clime has done its wooing is the most fascinating that can be told the children of men and women.

## IN THE SICK ROOM.

Keep the bottles as far as possible out of sight.

Never leave medicine, drink or food uncovered in the sick room.

Have the bed a foot or two from the wall.

Plenty of ventilation, but no air directly blowing on the patient.

Everything fresh and clean, with the purest of soap and plenty of warm water.

Each individual disease requires a peculiar diet of its own.

Tobacco should never be used in the sick room.

Use kindness but firmness toward the patient.

To assuage thirst and cure feverishness apple tea is a notable drink. It is made by slicing raw apples into a jug, filling up the jug with boiling water, as in tea-making, then sweetening to taste. When cold this apple tea will be found pleasantly tart and refreshing.

Nowadays doctors forbid gouty patients to eat any kind of sweet food but recommend them to eat at least a dozen walnuts a day. There is no doubt that walnuts are most useful in gouty subjects, or in cases of chronic rheumatism. Swelling goes down and pain decreases.

## A DAY'S DOINGS IN COURT HOUSE

LOUIS PIERSON DIVORCE CASE  
ATTRACTS MUCH INTEREST  
IN PROBATE.

Several Matters Under Consideration  
in Common Pleas Court—Court  
House Items.

The divorce case of Louis A. Pier-  
son against Isabelle Pierison, is on  
trial in the Probate court. Smythe  
& Smythe and T. B. Fulton represent  
the plaintiff and Hunter & Hunter  
represent the defendant. The plain-  
tiff alleges wilful absence on the part  
of the defendant for more than three  
years and gross neglect of duty. The  
case has been tried twice before in  
the Common Pleas courts, and is at-  
tracting a great deal of interest on  
account of the prominence of the  
parties.

### In Common Pleas.

In the matter of the will of Mary  
E. King, deceased, submitted to the  
court for a construction of the will.  
Mary A. King died in March, 1891,  
leaving a will, the third item of  
which is as follows: I give and be-  
queath to my son, William A. King,  
the sum of one thousand dollars in  
trust for the purpose of being applied  
by him towards defraying the expense  
of the education for the Christian  
ministry of such indigent and worthy  
young men as he in his best judgment  
and discretion may select. I make  
the payment of this bequest a charge  
on any real estate of which I may  
die seized in fee.

Frederick M. Black was appointed  
trustee upon the death of William A.  
King, December 15, 1898. The trustee  
asked the direction and judgment of  
the court for the proper distribution  
of the funds; and a determination of  
the rights of the several parties in  
interest. The court held that the tes-  
tatrix had reposed special confidence  
and trust in William A. King; and  
held that the legacy lapsed upon the  
death of William A. King. Notice of  
appeal was given to the Circuit court.  
Black; J. H. Jones.

Elizabeth Hoover vs. O. C. Hoov-  
er, an action for divorce, tried to the  
court. Sparks, Abernathy; Smythe &

leave to file pleading instant, Rus-  
sell & Horner; Bolton.

Wm. J. Finley vs. C. O. Coleman,  
leave to file answer in 10 days. An  
action for commission for the sale of  
real estate. Bolton; Russell & Hor-  
ner, Leamon.

Peoples National Bank vs. Theo W.  
Brandt, et al, leave given to the an-  
swer on behalf of John Tucker, in-  
stant. Fulton & Fulton; Russell

### Suit to Break Will.

O. B. and G. A. Stevens, brothers,  
have begun suit at Kansas City to  
break the will of their uncle John C.  
Larwill, who died at Mansfield, O.,  
worth about \$1,500,000.

### Suit for Labor.

Thomas J. Spicer has commenced  
suit in the Common Pleas court

against William H. Wise to recover  
\$200 for work and labor, alleged to  
have been performed for one hun-  
dred days.

### Case is Continued.

John Stocks, arrested by Officer  
Bennett of the Pan Handle railroad  
on a charge of train riding, pleaded  
not guilty and his case was contin-  
ued until Tuesday morning.

### For Throwing Stones.

Officer Smith of the Pennsylvania  
lines, caused the arrest of Alexander  
Eckard, Harry Williams, Roy Snyder,  
Marshall Powell and Ernest George all  
of East Newark, charging them with  
throwing stones at a Pan Handle  
train Friday afternoon. The offense  
is alleged to have been committed  
near Heiser's factory. Eckard and  
George admitted that they commit-  
ted the offense, but cleared the other  
boys of any connection. Both lads  
were placed under suspended sen-  
tences.

### Chief Godfrey.

Chief Gabriel Godfrey, the last of  
the Miami Indians, has just become a  
member of the Horse Thief Detective  
association. He is seventy-four years  
old. While in Kokomo, Ind., recently  
he undertook to locate the grave of the  
Miami chief Kokomo in order that the  
residents of the city might erect a  
monument in memory of the noted  
chief for whom the town was named.  
Godfrey had a number of relics, in-  
cluding a dress 125 years old that was  
worn by Frances Slocum, who was  
stolen when a child from Susquehanna,  
Pa., and was known as "the White  
Rose of the Miami."

The St. John's Ambulance associa-  
tion has placed a number of first and  
second aid stations in the streets of  
England. The cabinets are kept lock-  
ed, but readily can be opened by  
pressing a glass door in the same  
way as a fire alarm. They contain  
splints, bandages and smelling salts,  
as well as other first aid appliances.

## Good Riddance to Rheumatism

Health is Happiness! Pain is Misery!!

There is no pain more distressing than that of Rheumatism.  
Rheumatism includes Neuralgia, Sciatica and Gout. The presence  
of any of these diseases means that the blood is full of Uric Acid.  
Nature resents so much poison and in her efforts to clear it from  
the blood, forces some of it into the joints—on a bone—anywhere.  
The dull steady ache and the sharp twinge in arm and leg are  
the beginning of the disease. Permanent disablement and un-  
endurable torture are the penalty of the sufferer who allows the  
disease to go unheeded. By dissolving and removing from the  
system the poisonous Uric Acid, **Athlo-phoros** quickly relieves  
the pain and reduces the swelling thus helping nature to restore  
the shattered system to its normal condition of health and activity.  
Every druggist in this town sells and recommends it. Ask

### "Here's the Chew to Chew"

"Star" holds the record for quality, sales and value. In the forty years since it was first introduced no other chew has been able to equal it in satisfaction, economy and popularity—"Star" is the standard chew.

## STAR

PLUG CHEWING TOBACCO

It's every man's treat to his best friend—no other chew is good enough. Some other kinds seem to cost less but a "Star" chew lasts so much longer and gives so much more satisfaction that it always proves most economical. "Star" lasts twice as long as "cheap" chews.

Full weight 16 oz. plugs of "Star" are honest value and contain only the choicest, ripest, sweetest leaf. "Star" sales equal those of any five other kinds.

## NEWARK LOST TO COLUMBUS TEAM

FORTY-TWO POINTS SCORED ON LOCAL INDEPENDENT FOOTBALL TEAM.

Columbus Bunch Had Walkaway All Through the Game—Tried Out Several Scrubs.

Columbus, O., Oct. 29.—The Newark Athletic club's football team proved to be a disappointment to the Nationals at Indianapolis park Sunday afternoon. The Nationals expected a hard game, but the Newark team was too weak to give them a battle worthy of the name. The Nationals went right ahead and played the game and gave the spectators a run for their money. The Newark team was unable to penetrate the Nationals' line and could not score, but the Nationals ran up a score of 42 points.

Russell scored the first touchdown after a minute and a half of play and after that it was only a question of how many points the Nationals would make. Barton did some great kicking and did much toward aiding to run up a score.

In the last half the manager of the Nationals relieved some of the regulars and tried some new men, but the team kept right on scoring, the new talent doing well.

"Rick" Barrington and Humphreys, were the officials and they gave excellent satisfaction.

Nationals—42 Newark—0.

## FOHL MAY CAUSE CLYMER TROUBLE

COLUMBUS PEOPLE THINK THAT HOGAN IS PLAYING TRICKS TO RETAIN CATCHER.

Accuses Marty of Getting Butler and Compton Drafted by St. Louis for Youngstown.

A special from Youngstown to the State Journal Sunday says: Although Manager Hogan of Youngstown has received the draft heck for Fohl there is liable to be a contest made by him against his going. In September he secured his release before the season for drafting had started and then signed a contract without a reserve clause.

Fohl is very anxious to play in Youngstown again and insists that he will make a fight to get free from Columbus. He thinks that Columbus has eyed in drafting him and thinks that he is free to sign where he pleases. This he says he will do.

Another case of a similar nature will go up for the National board to decide in Pitcher Ehnman of Akron. He has been drafted by Cleveland under the same state of affairs. His contract without a reserve clause was signed on September 1 and the draft came afterwards. The Akron people insist that they will not let him go and will fight the proposition to the last.

The State Journal comments as follows:

It appears that Hogan inveigled Lee Fohl into thinking that Youngstown was the only place for him and got the catcher to sign a contract for 1907, with the reserve clause out. This is alleged to have been done on September 1.

Evidently Mr. Hogan thinks he will hold Fohl. If that case ever goes to the National board, it will be blown to pieces in an instant. How in the world will the board members help but see through the little trick?

By the way there is a letter on file from Fohl at Columbus baschell headquarters. He says in it that he is asked to get the chance to come to Columbus and made the claim that Youngstown had no hold on him. So there you are. It will probably all end in the Youngstown people knowing the fact draft money and Fohl reporting on him to Manager Clyde.

Now it comes out that this trick isn't the only one Hogan is turning. Information is at hand to the effect that he had Manager McGee of the St. Louis Browns draft Pitcher Compton of Lancaster and Shortstop Butler of Akron for the express purpose of turning them over in the spring to the O. P. championship team.

## BOWLING LEAGUE ORGANIZATION WAS COMPLETED

The organization of the Newark Bowling league which was started a week ago at a meeting held at the Music Hall theater, was completed yesterday afternoon when the bowlers of the city met at the same place and voted in three new teams. One of the teams withdrew and this left three vacant berths. It was decided to split up the Newark Bowling club elect captains and allow these men to enter teams in the league. The various clubs now in the league, with their captains are as follows:

Boches, Capt. J. Hamlin.  
Railroad club, F. Montgomery.  
Plicker club, F. Graef.  
Strollers, D. Baker.  
Odd Five, F. Jones.  
Gimlet club, G. Traey.  
Consumers, L. Cook.  
Spring club, D. Page.

According to the rules adopted by the league, no more than two members of the Newark Ten Pin club formerly the Music hall club, will be allowed to roll with any team in the league in a scheduled game. The games are scheduled to be called at 7:30 o'clock each evening on the date scheduled and the first game will be played November 1, or next Thursday night.

Frank Graef was appointed as a member of the board of directors to succeed Campbell who was a member of the Glass Workers' team which dropped out. The first four nights in the week will be set aside for team bowling. Each man will be charged 10 cents per week membership fees, and this will be used to defray any expenses. It is thought that enough will be left to give a big banquet at the end of the season, which will finish about April 1.

A meeting of the directors will be held Tuesday night when the schedule will be completed. These will be given out Wednesday night when all captains and their men will meet at the Music Hall to complete the final details for the opening of the season.

### TROOPS ENOUGH

Being Sent Out Against the Utes to Bring Them to Time.

Omaha, Neb., Oct. 23.—The departure from Fort Robinson, Neb., of four troops of the Tenth cavalry makes 16 troops of cavalry, a total of 765 officers and men, en route to the scene of the depredations of the band of the Indians supposed to be in camp on Powder river, in Wyoming. No move will probably be made until all the forces are joined. "It is hoped by the display of a strong force to overawe the Indians and prevent a fight," said Major C. A. Neaves, military commander of the detachment of this force. "They are, however, well armed and very sullen and it is hard to say what will happen. There are about 350 in the party, including women and children, but I do not think there are over 150 fighting men among them."

## DENISON WON IN AN EASY GAME

HARRY PINE OF NEWARK WAS THE INDIVIDUAL STAR OF THE GAME.

Baptists Were Outweighed But Had No Trouble in Scoring—Field in Bad Condition.

Granville, O., Oct. 29.—Denison defeated Otterbein here on Beaver field Sunday afternoon by a score of 26 to 0. The field was in a terrible condition on account of the heavy rains Friday night and Saturday.

In no stage of the game was Denison's goal in any danger as the ball was in the visitors' territory nearly all the time. Otterbein outweighed Denison several pounds, but their interference was poor.

Pine, Rogers and Jewett made several end runs for from 40 to 60 yards, and Livingston's line backs were ground gainers. Denison successfully worked the forward pass twice for 20 yards each. Pine for Denison and Beeson for Otterbein were the stars of the game. Line up:

Denison 26. Otterbein 0.  
Pine ..... 16 ..... Lambert  
Chittenden ..... 11 ..... Weaver  
Swartz ..... 10 ..... Stouffer  
Wright ..... 9 ..... Bailey

## MEDICS WON

Case Succeeded in Scoring Touchdown Against Columbus Doctors Saturday.

Columbus, Oct. 29.—Case school was defeated Saturday by the Ohio Medical university by a score of 16 to 6 in a muddy field that was fanned by a wind that at times almost blew a hurricane. The game was interesting for the reason that Case will go against the State University team before the season ends, and the Medics play against the State Thanksgiving day. It was a game of up and down he field, but the consensus of opinion is that the Doctors played in luck. Quarterback Means of the Medics showed superiority in kicking, driving the ball against a stiff breeze for good distances every time he booted it. The line up:

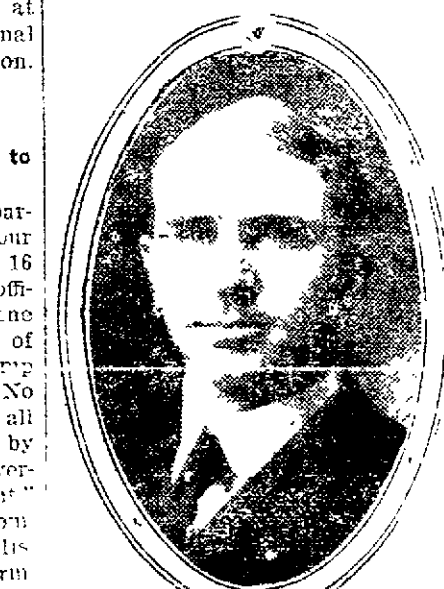

Medics 16. Case 6.  
Jackson ..... 11 ..... Bacon  
Halzerand ..... 10 ..... Muggleton  
Johnson ..... 9 ..... Bradford (C)  
Hawkins ..... 8 ..... Wyman

been handicapped all season by ill luck in having players injured.

Stanton in talking of the game Saturday at Delaware says that Wesleyan surprised everybody and outplayed Wooster. He stated that it was hard luck for Wesleyan to be penalized right after a clean goal from the field. Stanton gives it as his opinion that the Wooster team is "overtrained."

There are some severe criticisms handed out to Stanton by writers who saw the Wesleyan game. They say that the penalty imposed upon Wesleyan just after the game was won by a clean goal from the field, was unjust. Stanton says, however, that one of the Wesleyan men was guilty of holding, and that there was no other course. There was also a difference of opinion as to the ruling regarding the safety, Coach Ryan of Ohio State claiming that it was a touchback. Wesleyan supporters are kicking because Stanton should inflict the only penalty of the game against the Wesleyan eleven just after that team had scored four points and won the game.

The Cleveland Plain Dealer in its Sunday issue, printed a large two-column half tone of Coach Stanton in his football togs. He is popular in Cleveland, as he was in Granville.

## NEW RULES STRICT FOR BUCKEYE LAKE

The number of accidents which occurred on Buckeye lake during the past season, in which boats collided, though fortunately without loss of life, has awakened the state board of public works. In one of these accidents the board happened to be on one of the boats which was struck by a passing boat.

These collisions were largely attributed to the arrogance which the large boats assumed over the little ones compelling them to get out of the way and bossing the channels as they pleased. After that accident to the board, the dictum went forth that such high-handed work must cease.

A code of rules has since been adopted and promulgated in a pamphlet which has been distributed to all who have boat landings on the lake. It violates any one of them is to incur the penalty of being barred from the lake.

The rule fix the duties of the patrol men of the lakes, for the code applies to all lakes under that jurisdiction on the board; it governs the renting of the right to use a boat on the water.

But far more important, the code defines to a nicety the rules for sailing, whether by rowing, sailing, or by power; the channel rights and duties boats crossing each other's course and many other circumstances which may arise when boats meet are defined.

Signals by day and lights by night are explicitly given and the whole is illustrated with plates for almost every possible situation in which two or more boats may find themselves.

Ladies, free admission at the Crescent Rink tonight.

## WHY THE JAPS ARE EXCLUDED

California Laws Require Separate Schools for Orientals.

## ADULT JAPS ATTEND SCHOOL

People of San Francisco Do Not Think It Best For Grown-up Yankies of the Orient to Be Fellow Pupils of White Children—They Welcome the Coming of Metcalf.

San Francisco, Oct. 29.—The people of the Golden Gate city, who have some ideas of their own on the subject of segregation in the public schools, will gladly welcome the coming of Secretary Metcalf as the special emissary of President Roosevelt to inquire into the exclusion of Japanese from public schools for white children. The Japanese are not excluded from the public schools for oriental races, on which peg the whole matter hangs.

The city school superintendent, Mr. Rencoroveri, said the coming of Secretary Metcalf is not necessary, as the exclusion of Japanese from the schools provided for white children is required by law.

"Many of the so-called Japanese schoolchildren," said Mr. Rencoroveri, "are men 20 to 25 years old. These pupils are largely of the Japanese servant class, who are working for their board and lodging. They are to be commended for so working, but they are not entitled to go to school like little boys and girls. We do not deny Japanese any educational rights, but there are separate schools for them, and those they must attend. Of course if the United States declares our state law in conflict with a treaty that's another matter. But at present we are guided solely by California law."

President Altman of the San Francisco school board said "When Secretary Victor Metcalf arrives here Thursday to inquire into the action taken by the board of education of the city and county of San Francisco in providing a separate school for Japanese children we will meet him more than half way."

"The position of the school board is for the best interests of the public schools of San Francisco and in strict conformation with the state laws. We believe that the best interests of schools should be subserved by sending children of Japanese parentage to separate schools. If we have erred and can be shown whereby we have done so the board will be more than pleased to correct its mistake—if any has been made. Without receding from our position, the board claims that the fault, if any exists, is with the executive board of the state. The plain and unmistakable language of that particular section of the statute under which the board acted states that all children of oriental parentage shall be placed in a separate school. The board would like to have the constitutionality of the statute tested in the courts."

Tokyo, Oct. 29.—The course of action pursued by the United States with the view of protecting the treaty rights of the Japanese has been somewhat effective in soothing the feelings of the Japanese people injured by the San Francisco school incident. It is altogether unlikely and there is as yet no sign whatever that the Japanese will imitate the Chinese in boycotting American goods.

## Will Challenge Mormons.

Boise City, Idaho, Oct. 29.—The state Democratic executive committee issued a statement declaring that the Mormons of Idaho will be challenged as to their constitutional right to vote in Idaho. The challenges will lay the foundation for a contest in congress as to the right of Mormons to exercise elective franchise under the provisions of the Idaho state constitution.

## Wanted in Tennessee.

Indianapolis, Ind., Oct. 29.—Ethelbert T. Kemper, a well known Indianapolis insurance man, was arrested here and is held awaiting an officer from Memphis, Tenn. It is reported that Kemper will be returned to Memphis to answer a charge of embezzlement. An indictment was returned at Memphis early in 1905, following Kemper's employment there about two years before by a play company. According to the indictment he is charged with embezzling \$1,221.

## Railway Postal Clerk Arrested.

St. Louis, Oct. 29.—After an investigation lasting six months a post-office inspector caused the arrest of Daniel Woodward, 51, a railway postal clerk, on the charge of stealing packages from mail pouches addressed to southwestern points. The inspector says that when Woodward was arrested a grip carried by him on his run was searched and found to contain five pairs of shoes, silverware and several articles of clothing. Woodward ran on the P. & O. system out of San Francisco.

## Fire in Cotton Warehouses.

Cutaw, Ala., Oct. 29.—Fire swept away half of the Planters' Warehouse and Commission company's warehouse, destroying property estimated at \$75,000 to \$100,000. The warehouse contained from 2,000 to 3,000 bales of cotton. Possibly only 500 bales are insured. The origin of the fire is unknown, but is thought to have been started by a spark from a passing locomotive.

## THE LINE-UP OF PARTIES

Various Political Forces Engaged in Contest This Year.

## SUMMARY OF THE SITUATION

Ohio Has Five Tickets on the Official Ballot — Pennsylvania Shows Up With an Even Dozen—Most of the States Elect Governors — Congressional Elections Important Factor.

New York, Oct. 29.—In the line-up of political parties for the contests this year there are some complex situations as a result of new and vigorous movements in some states.

Elections will be held in 42 states and three territories. Oregon, Maine and Vermont have elected their state officers and members of congress. In 23 states a governor and other state officers, in 20 of them also a legislature; in 10 minor state officers or justices of the supreme court; in two congressmen and a legislature, and in seven congressmen only are to be elected. Oklahoma is to vote on a state constitution, and Arizona and New Mexico on joint statehood.

As usual there is one state ticket—the Democratic—in South Carolina. Pennsylvania leads this year with the greatest number of state tickets 12. Parties are numerous, those having tickets in the field being Independence League, Citizens' Commonwealth, City, Referendum, Jefferson, American, Anti-Administration Republican, Reorganized Republican and Lincoln Republican. Six of them are confined to Pennsylvania.

Following are the tickets to be voted in Ohio:

Democratic—Secretary of state, Samuel A. Hoskins; school commissioner, Charles W. Haupt; dairy and food commissioner, Rodney J. Diegle; member board of public works, George E. Niswonger.

Republican—Secretary of state, Carmel A. Thompson; school commissioner, Edmund A. Jones; dairy and food commissioner, Kenick W. Dunlap; member board of public works, George H. Watkins.

Prohibition—Secretary of state, Alfred F. Hughes; school commissioner, John H. Dickason; dairy and food commissioner, D. Gwynn Coyner; member board of public works, Richard H. Rutherford.

Socialist Labor—Secretary of state, Max Eisenberg; dairy and food commissioner, John H. Nordhold; board of public works, John D. Goerke.

Socialist—Secretary of state, Oly J. Henslee; school commissioner, Erasmus L. Lewis; dairy and food commissioner, John E. Emmons; member board of public works, John A. Blase.

The Socialists have tickets in 27 states, the Prohibitionists in 22, Socialist Labor in seven, Populists in four and Independence League in three, "Public Ownership" one.

There is fusion in only one state—Nebraska—where the Democrats and Populists agreed on a division of the state nominations.

The number of tickets in the different states is: One, South Carolina; two, Alabama, Florida, North Carolina, Tennessee, Washington; three, Delaware, Montana, Nevada, North Dakota, Rhode Island, Utah; four, Connecticut, Colorado, Idaho, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, South Dakota, Wisconsin, Wyoming; five, Illinois, Iowa, Kansas, New York, Ohio; six, Indiana, Massachusetts, Texas; seven, California; 12, Pennsylvania.

The Socialists have tickets in California, Colorado, Connecticut, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Missouri, Montana, Nebraska, New Hampshire, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Tennessee, Texas, Wisconsin and Wyoming.

The Socialist Labor in Illinois, Indiana, Massachusetts, New York, Ohio, Pennsylvania and Texas.

The Prohibitionists in California, Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New York, Ohio, Pennsylvania, Rhode Island, South Dakota, Texas, Wisconsin and Wyoming.

The Populists in California, Indiana, Iowa and Kansas.

The Independence League in California, Massachusetts and New York. Union Labor in California, Pennsylvania, "Public Ownership" in Minnesota, Anti-Administration Republican in Alabama, Reorganized Republican in Texas and Independence Democrats in Colorado.

A national house of representatives is to be elected, the Sixtieth congress, with 286 members. The present house is composed of 250 Republicans and 136 Democrats. Maine has already elected four Republicans, Oregon two and Vermont two.

The terms of 20 United States senators, 15 Democrats and 15 Republicans, expire March 3, 1907. Virginia, Louisiana, Mississippi, Kentucky and Arkansas have already selected Democrats, and Georgia has a legislature which will elect another, while Maine and Oregon have legislatures which insure the return of Republicans. Of the 22 states in which a legislature will be chosen that will elect United States senators, 14 are represented in the senate by Republicans and eight by Democrats.

## OUT OPENLY FOR TARIFF REVISION

Is Perry S. Heath, Former Secretary of the Republican National Committee.

Washington, Oct. 29.—Perry S. Heath, one-time editor of the Cincinnati Commercial Gazette, first assistant postmaster general, secretary of the Republican National committee, right hand man of the late M. A. Hanna, who coined the "stand-pa" slogan, has strayed from the teachings of the man at whose feet he sat. He is no longer an ardent stand-parter.

Mr. Heath, now a citizen of the world, with property interests here and in half a dozen American commonwealths, is in the city on private business. He stood for the tariff-revisioner on the subject of the tariff.

"Many Republicans of Indiana believe that the Congress made a mistake when it failed to revise some tariff schedules," was his somewhat startling declaration. "We are not facing the same conditions that existed when Senator Hanna promulgated the doctrine. That was five years ago. The Republicans who advocate tariff revision today are protectionists as much as they ever were, but they believe that changing conditions should be met promptly with tariff conditions to fit."

"The tariff ought to be revised before revision will be absolutely necessary to bring better times."

## BRONCHITIS CONQUERED

Toxico a Most Remarkable Discovery for Asthma, Catarrh and Bronchitis.

New York, Oct. 29.—The news that a famous Vienna physician has discovered a wonderful cure for bronchial diseases has created widespread attention throughout this country. It is claimed that this remedy, Toxico, will cure chronic bronchitis and asthma in thirty days.

Toxico acts as a tonic, building up the weakened tissues and membranes of the bronchial passages and if taken previous to cold weather it will prevent "winter colds" and asthmatic attacks. The Toxico Laboratory, 1255 Broadway, New York, who have introduced this remedy into this country, will send a sample free by mail to anyone who writes for it.

## Will These Silks Wear?

This is a question we are asked daily. When asked about the Moneybak Silks we unhesitatingly say, yes. Because they are the rich, old-fashioned silks, of the kind your grandmother wore.

They are woven of all silk—no weighting or adulteration, but all silk.

You can tell a good silk when you feel it and if you are willing to pay just a little more than the ordinary price you can get this silk that is

## ABSOLUTELY GUARANTEED TO BE PURE,

and your money will be refunded if the silk doesn't wear even to exceed your expectations and our guarantee. Profit by others experience and ask for the Moneybak Silk. Without exception the finest black silks worn in this vicinity are Moneybak Silks. The name is woven in the selvaige. We have been quietly selling these silks for five or six seasons and our patrons tell us that the wearing quality of these silks is unequalled and they want another black silk just like the other one they bought.

This week we are showing some nice black petticoats and waists, made of this silk, and we would like to show their qualities to you.

## GREEN HOUSE AT GRANVILLE BURNS

THROUGH GENEROSITY OF MR. J. S. JONES STRUCTURE WILL BE REBUILT.

"Leaf Proposition" a Large One in Granville—Hallow'een Party. Granville Items.

Granville, Oct. 29.—Aside from the burning of the Barney Science hall, one of the most disastrous fires that has visited Granville for a long time, was that which destroyed to a large extent the greenhouse belonging to Mr. Charles Duerr, at the extreme western end of the village, early Sunday morning. The greenhouse consists of five buildings, with the boiler room in the center, from which run pipes by means of which all the buildings are heated. About 3:29 o'clock a. m., Mr. Zell, who occupies the house adjoining the greenhouse on the north discovered the fire, already burning fiercely in the boiler room, where it had started. Mr. Zell immediately sounded the alarm, and notified Mr. Duerr, who was sleeping at the time. Mr. Duerr ran from the house in his bare feet and with nothing on his person except his underclothing and trousers and began the battle against the flames, assisted by a number of the neighbors. They successfully used the water and hose, with which the greenhouse is supplied, and by the time the fire department arrived on the scene had the fire well under control, although the gallant firemen did excellent and commendable work under the assistance of their chief, Mr. Edward Smoots. When the firemen arrived on the scene a long line of hose was laid and in a few moments what was left of the fire, was extinguished. Chief Smoots ran into the north building and was making his way through the dense smoke, when he crashed against a glass partition, severely cutting himself about the face.

Mr. Duerr estimates his loss at about \$1,550 of \$1,600. Of this about \$950 is on the building; \$400 on chrysanthemums; \$200 on palms and ferns, besides other plants that were ruined.

Mr. Duerr, who is an experienced florist, having served his apprenticeship in Germany, and worked at the business all his life, came here from Chicago about 18 months ago, where he had for a long time been connected with the leading florists of that city. When he came here he brought his little family, consisting of his wife and three children with him, and for thirteen months was with Mr. Stinger, from whom he purchased the greenhouse on the first of last July.

He made a specialty of chrysanthemums, roses, carnations, hot house plants and lettuce for the trade, and was building up a fine trade when this calamity overtook him and badly crippled his business. It has been suggested that inasmuch as many citizens of Granville had the misfortune to lose all their choice plants by the recent severe freeze, that they replace them by leaving their orders with Mr. Duerr. Mr. Duerr still has quite a variety of choice plants, which, if they escape freezing until the heating apparatus is repaired, he will be able to supply customers. He hopes to soon be able to restock his greenhouse with a choice selection of everything carried by a first class florist.

Through the generosity of Mr. J. S. Jones, Mr. Duerr will be enabled to rebuild immediately, Mr. Jones having offered him the loan of all money necessary for the purpose, taking no security and giving him all the time desired.

## BURNING LEAVES.

The pungent odor of burning leaves hung heavy on the air in Granville all day Saturday. The "leaf proposition" is a large one in Granville, due to the hundreds of trees which line the streets and surround nearly every dwelling. Until one climbs to the top of one of the high hills in Granville and there views the landscape, he does not realize the multitude of trees within the corporation, some of which are nearly as old as the century-old town. Here and there is a roof of a dwelling visible, gleaming with a wondrous brilliancy in its frame of bright green leaves. When in the fall the trees begin to shed their leafy coats, there is something doing. Glances in which ever direction you may choose, bonfires were burning Saturday and this will continue until the last leaf has fallen and is burned.

## MANDOLIN CLUB.

The University Mandolin club was organized for the coming year at a meeting held at the conservatory. The officers for this season were elected by the members of the club as follows: Faculty director C. P. Wood; president W. H. Cox; librarian, H. C. Wight. There is much interest shown in the club this year and with Mr. Wood, who for the last three years has been a member of the Harvard club, as director a good club is assured. Music has been received and the club has already commenced to prepare it for rendition.

## HALLOW'EEN PARTY.

One of the most enjoyable social events which has taken place this year was the Hallow'een party given by the Freshmen in Notre Gymnasium Saturday night at 7:30. Upon en-

tering the hall one was met by two ghostly creatures with cold hands, whom all tried to avoid. Partners were arranged by matching numbers. The special features of the evening were the "Virginia Reel" and "Grand March." During the evening a regular Hallow'een supper was served and at 10 o'clock all went away having spent a most delightful evening.

## GRANVILLE NOTES.

Charles Kibler of Newark visited the Phi Gams. Miss Ella Howe of Mt. Vernon was home Saturday and Sunday. Robert Lamson of Toledo was in the village Sunday.

Reed Breisford and James Adair spent Sunday in Zanesville.

Mr. and Mrs. David Morris of Dayton were in Granville a few days last week.

Charles Johnsen has purchased the barber shop over the Buxton jewelry store of Orion Rollison and will run two chairs. Epoch was with Wilbur Tansom for five years and with Charlie Perrin for two years and has many friends in the village who are glad to see him in business for himself.

## NEWARK PLAYED MT. VERNON TEAM TO STANDSTILL

The game between Newark High and the Mt. Vernon High Saturday resulted in another 0 to 0 score.

Newark played the stronger game and was outweighed by Mt. Vernon. Newark was stronger on defense than offense but Mt. Vernon seemed to be able to guard her goal line with dogged resistance. Newark people state that Mt. Vernon is fast and tricky. For Newark Conley and Nehls played the star games. Nehls was able to go through Mt. Vernon's lines for eight and ten yards on each buck. Upson was also strong at quarter. Prof. Tait accompanied the team to Mt. Vernon.

## CORNER ON RADIUM

Dr. Burner Proposes to Build \$100,000 Sanitarium Here Providing Free Site is Furnished.

Dr. H. R. Burner of Los Angeles, Cal., who has come to Newark with a proposition to build a sanitarium here at an expense of \$100,000 if the city will furnish a suitable site, gave two very interesting addresses in the A. I. U. hall, West Main street, Saturday and Sunday evenings.

Dr. Burner, who is a former Newark man, is said to have practically a corner on the radium of the world, is the sole owner of five large sanitariums in California. Three of these are located in or near the city of Los Angeles and the other two in neighboring cities. A description of the manner in which Dr. Burner started the system of treating patients with radium charged foods is very interesting. Only a few years ago the doctor's health was very poor and after many months he began a radium treatment with a friend in Paris. The success of the treatment so impressed the former Newark man that he at once set to work purchasing all of the radium he could find. After securing all that would be sold in Paris, Berlin, London and New York, Dr. Burner learned of certain land in Mexico which contained particles of radioactive matter, but from which no pure radium could be obtained, and, desiring certain forces which were found in this quality of matter, he secured the land comprising in all 14,000 acres. With the use of the pure radium and what could be obtained from the Mexican land, Dr. Burner established these large sanitariums. However, before the doctor had purchased these lands in Mexico, and before very extensive quantities of radium could be purchased by other parties, fortunately for him, Bohemia passed a prohibitory law so that no more of the radium producing pitch blend, which is only found in that country, could be exported, and as there is none in Bohemia who understand the system of extracting the valuable mineral the field stands undeveloped.

Dr. Burner proposes to build a \$100,000 sanitarium here providing a site is forthcoming or action favorable to it is taken, within the next ten days. It is understood that a member of the Columbus Chamber of Commerce was here in conference with the doctor Saturday and a part of Sunday and stated that the Capital City would furnish any site agreeable to the parties concerned in order to land the sanitarium there.
